Unit 1 Mock Exam

Eng. Mahmoud Mohamed: post and design for a programming exam

Before you step into Unit 2...
Are you sure you've really finished Unit 1?
Need to assess yourself, with no fear and no stress?

Because what matters more than studying...
is knowing:
What did I understand well?
What do I need to review again?
And what is still stuck with me?

That's why we made you a simple, comprehensive mock exam on Unit 1
with Eng. Mahmoud Mohamed.

The exam isn't meant to make you afraid of the subject... quite the opposite.
We want you to know your level, feel reassured about what you've understood, and gain the confidence to walk into Unit 2.

The exam is available for both Arabic and Language school students.
The exam is free.
And that's not all!
The student who mentions the most friends on the post gets a FREE month as a gift.
